Professional Summary

Full-Stack Developer with hands-on experience building scalable, secure, and production-ready web applications using the MERN stack, Next.js, and ASP.NET Core. Skilled in designing RESTful APIs, implementing token-based authentication (JWT, refresh tokens, HttpOnly cookies), and optimizing database performance. Passionate about clean architecture, maintainable code, and delivering high-quality solutions that solve real business problems.

Technical Skills

Frontend: React.js, Next.js, HTML5, CSS3, SASS, Tailwind CSS, Bootstrap, Redux, Context API

Backend: Node.js, Express.js, RESTful APIs, JWT Authentication, Role-Based Access Control

Databases: MongoDB, Mongoose, SQL Server

DevOps & Tools: Git, GitHub, Firebase, Cloudinary, Vercel

Core Competencies: Secure Authentication, API Design, Rate Limiting, Performance Optimization, Database Architecture, Clean Architecture

Experience & Training

Frontend Development Trainee

2025 – 2026

DEPI – Digital Egypt Pioneers Initiative
React.js

- Completed intensive front-end web development training covering modern frontend workflows.
- Built production-style projects involving responsive UI.
- Strengthened collaboration, version control, and agile deployment practices used in real-world software projects.

Full-Stack .NET Trainee

2025

Tuya Technology
C#, ASP.NET Core, SQL Server, Entity Framework

- Built and optimized RESTful APIs, contributing to an average response-time improvement of **20%**.
- Developed CRUD-based systems handling **1,000+ records** efficiently with Entity Framework and SQL Server.
- Designed normalized database schemas and optimized SQL queries, improving query performance by **30%**.
- Implemented JWT-based authentication and role-based access control (RBAC) to secure application endpoints.

Key Projects

Medaura & CLYNK – Clinic Management System (Graduation Project)

[Live Demo](#) | [Frontend](#) | [Backend](#)

- Developed a full-stack clinic management platform using Next.js, Node.js, Express.js, and SQL Server.
- Implemented secure JWT authentication, RBAC, appointment booking, prescriptions, and notifications.
- Improved platform security with rate limiting, audit logging, and analytics dashboards.

Aetheris – Community Forum Platform

[Live Demo](#)

- Built a full-stack community forum using React, Node.js, Express, and MongoDB Atlas.
- Implemented JWT authentication, admin moderation tools, and Cloudinary media uploads.
- Developed search, filtering, likes, and responsive user experiences.

Games4U – E-Commerce Platform

- Developed a MERN-based e-commerce platform for games and devices.
- Built authentication, cart management, dynamic pricing, and admin dashboard functionality.
- Applied production-ready security practices and deployment workflows.

Medico Platform

[Live Demo](#)

- Built a pharmacy e-commerce platform serving 200+ users with role-based authentication.
- Developed product browsing, ordering workflows, and responsive user interfaces.

Education

Bachelor of Computer Science
Banha National University

Oct 2022 – Jun 2026
GPA: 3.39 / 4.0

Certifications

Front-End Web Development – DEPI (Digital Egypt Pioneers Initiative)

- Intensive training in React.js, JavaScript (ES6+), HTML5, CSS3, responsive web design, and modern front-end development practices.

Full-Stack .NET Development – Tuya Technology

- Training in C#, ASP.NET Core, SQL Server, Entity Framework, and scalable backend API development.
